Short Maturity Sustainable High Yield Bond Fund ("The Fund")

A sub-fund of SKY Harbor Global Funds

(Class C Capitalization EUR hedged)

ISIN: LU1841491506

Objectives and Investment Policy

The Fund seeks to generate favorable risk-adjusted returns over a full market cycle through actively investing primarily in U.S. dollar denominated, below-investment grade corporate bonds. The diversified portfolio will be primarily constructed with a focus on current income, preservation of principal and low volatility.

The Fund may also seek to minimize the risk of negative externalities that may result from environmental, social and/or governance ("ESG") factors, while focusing on sustainability leadership, defined by transparency and disclosure of ESG criteria.

The Fund may invest in out-of-index debt securities based on the judgement of the Investment Manager; for example, securities that are CCC rated, securities that are unrated but judged to have sufficient credit quality, and securities with maturities beyond five years.

The Fund is actively managed and may be compared against the ICE BoA 1-5 Year BB-B US Cash Pay High Yield Constrained Index ("JVC4") to measure performance but does not specifically track the JVC4 Index. The Sub-Fund can materially deviate from the JVC4

Risk and Reward Profile

The shaded area in the table above shows the Class' ranking based on the Synthetic Risk and Reward Indicator. The risk/return indicator suggests the relationship between risk and potential returns when investing in the Fund. The Fund has been classified as category 3 due to the nature of its investments, which include the risks listed below. This means that the purchase of units in the Fund is connected to medium risk of such fluctuations. Please note that category 1 does not mean a risk free investment. Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the fund; the category might change in the future.
